EXECUTIVE PROFILE

AI transformation and product leader with 5+ years of experience designing and delivering AI-enabled platforms, workflow automation, CRM systems and digital transformation initiatives across software, tourism, education and institutional environments. Managing Director of LexiaCode and Director of Innovation & Education at Fundación Fundatur, combining Generative AI, LLMs, AI agents, APIs, product delivery and growth operations. Track record includes reducing operational cycle times by 40%, directing 25+ product/QA delivery milestones, leading 10+ digital transformation and AI-adoption programs, and structuring technology engagements representing more than USD 2.5M in aggregate potential project value.

SELECTED CAREER IMPACT

- 40% reduction in operational cycle times through AI-powered automation pipelines and CRM workflow redesign.
- 25+ staged product, QA and security delivery milestones led across the development of LexiaCode OS.
- 15+ operational modules delivered within a full-stack AI-enabled commercial platform with human-in-the-loop workflows.
- USD 2.5M+ in aggregate potential project value across technology and RWA tokenization engagements.
- 10+ digital transformation and AI-adoption programs designed for institutions and regional productive sectors.
- Institutional initiatives structured with budgets up to USD 1.8M, including operational and financing frameworks.

CORE LEADERSHIP & TECHNICAL EXPERTISE

AI & Product: Generative AI | Large Language Models (LLMs) | AI Agents | AI Workflow Automation | Product Roadmaps | AI Product Delivery | CRM Architecture | API Integration | Human-in-the-Loop Workflows

Transformation & Delivery: Digital Transformation | Cross-Functional Leadership | Agile/Scrum | Requirements Engineering | SOWs | Milestones & Budgets | QA | Risk Registers | Stakeholder Management

Growth & Commercial Systems: Growth Strategy | Marketing Automation | Conversion Rate Optimization (CRO) | Funnel Optimization | Google Ads | Meta Ads | SEO/Content Pipelines | Lifecycle Funnels

Technology: Python | React | Node.js | Express | Prisma | SQL | PostgreSQL | SQLite | REST APIs | Azure | Docker | Git/GitHub | Linux | Nginx | Redis | Vite | CI/CD Concepts

Web3: RWA Tokenization | Smart Contracts | Token Economics | Web3 Architecture | Security Best Practices

PROFESSIONAL EXPERIENCE

Managing Director | Technology, AI & Product Lead

LexiaCode - Strategic Consulting and Software Development | Jan 2023 - Present

- Architected AI-powered automation pipelines and CRM workflows that reduced operational cycle times by 40% and accelerated lead progression.
- Directed the staged development of LexiaCode OS, a custom AI-enabled CRM and commercial operations platform, across 25+ product, QA and security milestones.
- Led delivery of a full-stack platform using React, Node.js, Express, Prisma and SQLite, with 15+ operational modules, role-based security and human-in-the-loop approval workflows.
- Designed organic growth systems integrating automated content generation, SEO monitoring, multi-channel distribution and conversion workflows.
- Structured RWA tokenization models and technology roadmaps for client engagements representing more than USD 2.5M in aggregate potential project value.
- Coordinated cross-functional work across software engineering, legal, marketing and commercial strategy to deliver production-grade solutions.

Director of Innovation & Education

Fundación Fundatur - Tourism, Education, Technology & Development | Mar 2021 - Present

- Lead innovation initiatives connecting digital transformation, AI adoption and technology with institutional and productive-sector needs.
- Designed and executed 10+ digital transformation and AI-adoption programs for institutions and regional productive sectors.
- Formulated institutional, operational and financing frameworks for initiatives with budgets up to USD 1.8M.
- Introduced standardized project briefs, workflows and automated reporting systems to accelerate executive approvals and stakeholder alignment.

SELECTED PROJECTS

- LexiaCode OS - AI-Enabled Commercial Platform: Directed product roadmap, QA and security controls for a full-stack platform with 15+ modules, CRM workflows, role-based access controls and AI-assisted operations.
- Decentralized Tokenization & Smart Contract Platform: Architected Web3 and smart-contract solutions for digital asset management, compliance logic, RWA tokenization and automated loyalty/token systems.
- Institutional AI Modernization: Built automation workflows translating Generative AI and LLM tools into structured, low-risk operational routines for SMEs and organizations.

EDUCATION & PROFESSIONAL DEVELOPMENT

National University of Tucumán (UNT) - Programming Studies, 2020

Strategic Project Management (BUS605) - Saylor Academy, Jul 2026 | Credential ID: 4490503854JV

Google Ads Certification - Google (Search & Display)

Smart Contract Security & Auditing - Cyfrin Updraft (Ongoing)

Blockchain & Smart Contracts Specialization - Advanced Technical Training, 2022

Regional Marketing & Business Development Certification - Tucumán

LANGUAGES & MOBILITY

Spanish: Native | English: Professional Working Proficiency
